

HiRail Trailer Axle

- Rail gear assembly rotates $\pm 90^\circ$ for ease of getting on rail
- Rail assembly is locked in place when not in use
- Remote grease port to bearing
- Railgear locks into 3 positions, straight ahead for on road use, float 10° to allow the truck and trailer to go through 100 foot curve, and free when getting on rail.
- Walking beam design keeps wheels from derailing and equalizes loading.
- Rail and track are used interchangeably
- Can be installed on different trailers.
